

The Presidents' Message

The 2000 cricket was another enjoyable one for the Staten Island Cricket Club. Approximately 30 “friendly” games were played both at Walker Park (Home ground) and at various away grounds. In addition, the club traveled to Toronto, Canada for two games on Labor Day weekend, September 2nd and 3rd.

The club also played 14 League games. And although we had a slow start, we won just about all our League games in the second half of the season. This finish will provide a very desirable impetus for starting the 2001 season.

The highlight of the season was the trip the club took to England for its first participation in the Durham Cricket Festival. Comments on the festival appear elsewhere in this volume.

The president and officers of the SICC wish to thank all members, relatives, friends, and other supporters without whom there will be no cricket season for SICC. The president in particular wishes to thank all officers of the club for their dedicated work and especially those who give of their time to make this volume possible.

The club now engages in two cup matches. One is the Roy Huggins Memorial Trophy match and the other is British Schools Kitchner Memorial Trophy game. Both of these are looked forward to with enthusiasm, as they are generally delighted affairs. The latter was played in the 2000 season for the first time and SICC won. The club extends a warm welcome to new members and hope that you find the enjoyment in cricket you hope for in the family of the SICC.

We invite you all to participate in the two most social of functions put on by the club: Family Day and the Annual Dinner-Dance.

Clarence Modeste
